

ZODIAC

A high quality After-Sales Service

*Because a race
isn't won just
on the track*

Every SWEEPY M3 component and assembly has been rigorously tested; and every function has been fully tested under actual working conditions.

An efficient and rapid high quality after-sales service is there to assist you at any time.

You can even talk directly to SWEEPY M3 on the Internet:
www.zodiac-poolcare.com.

There you can find out more about the Zodiac range and get all the information you require to get the best out of your robot cleaner.

As fast as it is durable, the SWEEPY M3 by Zodiac is a truly competitive robot cleaner!

Zodiac, mastering the elements.

Renowned worldwide for the quality and reliability of its products in the aeronautical and marine sectors, Zodiac has now brought its expertise to swimming pools, to bring you a full range of pools, automatic pool cleaners and water treatment systems.

Backed by SweePy by Zodiac technology, expertise and experience, Zodiac brings you the reassurance of top quality equipment in terms of both design and performance. A real guarantee of efficiency and peace of mind!

SweePy

ZODIAC

The Truly Competitive Robot Cleaner

SweePy

The Sweepy M3 robot cleaner by Zodiac: *put a little rocket in your pool !*

3 motors:

a triple performance

3 motors, that's what's needed for a flying start!
The SWEEPY M3 carries one motor for suction, a second motor to drive it along, and a third motor to enable it to manoeuvre and cover a very large pool area (thanks to its exclusive rotating foot principle). It can even climb up and down the walls!

16 programs:

problem-free running in all shapes of pool

The SWEEPY M3 includes 16 programs, one of which will ensure that the robot cleaner adapts with complete accuracy to the shape of your pool, whether it has a flat bottom, a gently sloping bottom or a diving area.. Each program can be set for any one of 3 operating times: 45 minutes, 1 hour or 3 hours. The result: you can be sure you're investing in a robot cleaner that will meet the specific requirements of your pool.

Remote control:

ensuring a 100% effective operation

Any time that suits you, you can take over the controls of the SWEEPY M3 by switching over to the remote control unit built in to the transport trolley, This is your guarantee of even more meticulous cleaning.

High-performance brushes:

for maximum adherence

With the SWEEPY M3 you can select the type of brush best suited to the material used to line your pool: foam brushes (for tiles, liners or mosaic finishings), or bristle brushes (for concrete or polyester liners and certain types of tiling). These high-quality long-lasting brushes ensure maximum cleaning efficiency.

**Safety and reliability
guaranteed by total
compliance with the
relevant European
standards.**

The Zodiac robot cleaners were the first to meet the most stringent standards, and the SWEEPY M3 is both GS and EC approved.

Reliability and durability:

the SWEEPY M3 finds its way around unfailingly

So certain are we of the reliability of your SWEEPY M3 that we are giving you a 2 Year Guarantee!
The watertightness of the motor unit has received very special attention and the motors are fully protected to ensure a maximum service life. In addition, the control box and the tracks have been designed to ensure long hours of failure-free operation.

Simplicity:

top speed performance for everyone

- The design of the SWEEPY M3 has been worked out down to the last detail to make it easy for you to use: the filter holder, the bag holder, the remote control unit and everything else are all simple and user-friendly. You'll especially appreciate how easy it is to clean the filter bag, thanks to the new bag holder system.
- The SWEEPY M3 gives you the possibility of 3 types of filter bag:
 - A yellow medium mesh bag, recommended for regular use.
 - A green wide mesh bag (optional extra), recommended for when the pool starts to be used again: picks up the large leaves and litter that have been accumulating during the winter.
 - A special fine debris filter bag (optional extra), ensuring the meticulous cleaning of indoor pools.
- Your SWEEPY M3 is supplied complete with its transport trolley: practical and requiring very little space, it will make it a lot easier for you to put your robot cleaner away when you don't need it.
